

MD. SOYEB CHONDONI

Software Developer

📍 [Sirajganj, Rajshahi, Bangladesh](#) | 📞 [01622472941](tel:01622472941) | @ soyebchandani@gmail.com |

Summary

Full-Stack Software Engineer with 3+ years of experience developing scalable applications using Next.js, React.js, NestJS, and PostgreSQL. Skilled in architecting multi-tenant SaaS platforms, designing efficient backend systems, and delivering end-to-end features with clean, maintainable code.

Experience

Hidayah Lab

Software Engineer

December - 2023 to Present

Dhaka, Bangladesh

- **Core Responsibility:** Lead Full-Stack Engineer for a multi-tenant SaaS platform using **Next.js, NestJS, and PostgreSQL**.
- **Project: Academy Suite** (academysuite.io | tarsheedacademy.com)
 - Architected a multi-lingual, multi-tenant LMS with **Time Zone support**, ensuring accurate scheduling for live classes across global student bases.
 - Implemented complex database schemas with **PostgreSQL** and **Drizzle ORM** to handle tenant data isolation and subscription management.
 - Integrated secure payment gateways and managed user authentication/authorization roles (Student, Teacher, Admin).
- **Mobile Development:** Currently developing a 1-on-1 learning mobile application, implementing **cross-timezone synchronization** for real-time booking between teachers and students.

Repliq Limited

Trainee Software Developer

August 2023 – October 2023

Dhaka, Bangladesh

🔗 <https://www.repliq.dev/>

- Contributed to enterprise-level Next.js applications by optimizing performance and working with senior developers to resolve critical bugs and enhance code quality.

C-Sunshine

Frontend Developer

April 2023 – July 2023

Bratislava, Slovakia (Remote)

- Maintained existing web applications, ensuring cross-browser compatibility while implementing UI enhancements and resolving front-end bugs to improve user experience.
